# LIVING LEARNING COMMUNITIES

Living Learning Communities, known as LLCs, are residential communities designed to provide you a cohort experience with peers that share similar academic, career and co-curricular interests. In an LLC, you will meet friends with similar majors and interests, connect with faculty and staff right in your residence hall and enjoy experiences designed especially for you. There's no better way to learn something than to really live it! **There are three LLCs that are providing focused opportunities for business, honors and education students.**
